A FEW FACTS FOR THE FARMER

A FEW FACTS FOR THE FARMER.
There are two paper® published in New York City for foreign circulation only. One is the American Mail and Export Journal, which can only be obtained from a foreign country, and the other is The Engineering and Mining Journal, which is not sold in this country, but can be obtained by any person writing for it. These papers give the American milks, as sold in this country and abroad, and in all cases the retail prices for foreign countries are lower than the wholesele prices for American milks, as sold in this country and abroad, and in all cases the retail prices for foreign countries are lower than the wholesele prices for American dealers. Mr. Lindquist, of Cornell University, has tabulated many thousand of three discount sheets, and for the henefit of the considerate farmer we will mention a few of the articles used by him and the price he has to pay compared with that paid by feering areas.

On the 281 day of May, 1880, for the first them ties family circle of Mr. P. W. Roberts hos been broken.

A happy home! But death entered there and set his seal upon the lips of a beloved on Itugh, a shining mark, 19 years of age, in the Iul vigor of his manbow, emailing in its sweight.

Always gentle, kind and loving to his dear once, and a favorite in his circle of friends, there is a void in their heart and homes that can never be filled. His family were all around his bed as he gently went to skep. A beautiful smile of peace illuminated his face, and his last words to his beloved Pastor, Father O'Conner, "I am resigned to God's will," were full evidence of his abiding faith. A bright star gone down for a little time to rise again on that for a little time to rise again on that selection of the control of the control

SALT.

Its History and Manufacture.

The following ceasy was read at the closing exercises of the Civerport High School by Mr. Lom Morenes, no ed the gradiential close:

Common sail to the name applied the native and holostrial form of sodium the closing close:

Common sail to the name applied the native and holostrial form of sodium by very class of people, and it is so very important than to living being can exist without it. How many people who common state of the native and holostrial form of sodium hydrogen and the solid between the case; and one of these two nubstances of which it is those two nubstances, if that they were consuming a mineral, would believe it; int such a the case; and one of these two nubstances of which it is of those two nubstances of which it is of those two nubstances of which it is of those two nubstances and the case; and one of these two nubstances and the case; and one of these two nubstances and the case; and one of these two nubstances and the case; and one of these two nubstances and the case; and one of these two nubstances and the case; and one of these two nubstances and the case; and one of the case; and one of these two nubstances and the case; and one of the nubstances and the case; and one of the number of the case; and the case; the number of the number of

evaporation of seas and lakes, and the cystals that are found in salt cauld only have been formed in water.

We find salt spoken of in the very first book of the Bible, and we have a very first look of the Bible, and we have a very included the salt of the Bible, and we have a very included the salt of the bible, and we have a very in the case of Led's wife, when, fulling in reside the temparation to look back it is not salt of the sa pery ment the included sixth, and any other period of Polo, 10, 1801. "I was read-character and created at bond of includibility between the participants of the period of the wave of the trade of the wave of tradition is a strong of the property of the substance that must be bad, and peer picklife any distance to boiling in the precious mineral. The untural institute precious mineral. The untural institute of animals belief them to places where garden between the precious mineral. The untural institute of animals belief the them to places where garden belief to be found, and it has been found that they travel belief belief to the standard of the precious mineral in the best found of the precious mineral in the best found and it has been found that they travel belief to be found, and it has been found that they travel belief to be found, and it has been found that they travel belief to be found and it has been found that they travel belief to be found to be found and it has been found die.

Now let us see how it is non-heard free.

they would soon become discussed and die.

Now let us see how it is produced.

Now let us see how it is produced. The ancients obtained it by different methods. A kind of salt was obtained by by burning self-water plants and retain-ing the ashes; or they evaporated the-ce water, as bedone at the present day, only of course on a much smaller scale, the salt of today of braining, Seas-der and the salt of the salt of the salt of today, water. This precess of obtaining salt is called spontaneous evaporation, and is-carried on very extensively on the slower of the Mediterrament Sea, and an million tome of salt are animally produc-ed. A large piece of land varying in size from one to seven acres, larely above high-water mark, is levelled, and, if necessary, overed with clay to pre-vent the water from sirking away. The land after being prepared is pujitioned off into large and small besue, the smaller becoming mere shallthe first water from sinking away. The leads of the being prepared is partitioned off into large and small partitioned of the large and large and small presents and load up with the the large and large and
